

Statistical Sciences UNIVERSITY OF TORONTO

Assistant Professor, Teaching Stream – Contractually Limited Term Appointment (CLTA) – Statistical Sciences

The Department of Statistical Sciences, University of Toronto, invites applications for a one-year contractually-limited term appointment. This appointment will be at the rank of Assistant Professor, Teaching Stream, with an expected start date of August 15, 2018, or as soon as possible thereafter, and end on August 14, 2019.

Candidates must have a graduate degree in actuarial science, statistics, biostatistics or related discipline by the time of appointment or shortly thereafter; have significant experience in teaching a variety of courses in either actuarial science or statistics; evidence of excellence in teaching, including lecture preparation and delivery, curriculum development, and development of online material/lectures, is required. Evidence of engaging in pedagogical scholarship, experience teaching large classes and using innovative technology are an asset.

Salary will be commensurate with qualifications and experience.

All qualified candidates are invited to apply online by clicking on the link below. Applications should include a cover letter, curriculum vitae, and a teaching dossier (including a statement of teaching philosophy and sample course materials).

Please combine attachments into one or two files in PDF/MSWord format. Submission guidelines can be found at: <http://uoft.me/how-to-apply>. Three signed letters of reference on letterhead are required which primarily address the candidate's teaching. Referees should send the letters directly to katrina.mintis@utoronto.ca by the closing date August 1, 2018. If you have questions about the position, please contact: katrina.mintis@utoronto.ca

As one of the leading departments in North America our mandate is to serve as a centre of excellence for statistical research and education, across the campus, nationally and internationally. With an outstanding complement of 22 award winning faculty, our key strengths are the quality of our research, the abilities of our undergraduate and graduate students, our close ties to biostatisticians in the Dalla Lana School of Public Health, and the broad reach of statistical science across other disciplines. For more information on the Statistical Sciences Department, please visit our website at: www.utstat.utoronto.ca

The University of Toronto offers the opportunity to teach, conduct research, and live in one of the most diverse metropolitan areas in the world.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from racialized persons / persons of colour, women, Indigenous / Aboriginal People of North America, persons with disabilities, LGBTQ persons, and others who may contribute to the further diversification of ideas.

As part of your application, you will be asked to complete a brief Diversity Survey. This survey is voluntary. Any information directly related to you is confidential and cannot be accessed by search committees or human resources staff. Results will be aggregated for institutional planning purposes. For more information, please see <http://uoft.me/UP>

All qualified candidates are encouraged to apply; however, Canadians and permanent residents will be given priority.
