

Actuarial Analyst Opportunities

Position Title: Actuarial Analyst Co-op
Locations: Central Canada Office (Toronto)
Start Date: January to April, 2005 and May to August, 2005

Company Overview:

Watson Wyatt is an international human capital consulting firm that provides services in the areas of employee benefits, human capital strategies and related technology solutions. The firm is headquartered in Washington, D.C., and has over 3,900 associates in 61 offices in the Americas and Asia-Pacific.

Together with Watson Wyatt LLP, a leading Europe-based consulting partnership, the firm operates globally as Watson Wyatt Worldwide. Watson Wyatt Worldwide has more than 6,000 associates in 88 offices in 30 countries.

Responsibilities:

The co-op position offers an opportunity to gain valuable experience. Through our training program and dynamic work environment, actuarial interns will work in a team structure and be involved in a variety of projects that include:

- Interaction with client in administrative tasks that include client data, benefit calculations, and benefit statements
- Annual pension and/or post-retirement medical plan valuation
- Processing of participant data
- Investment studies
- Governmental compliance filings
- Long-term projections of assets, liabilities, and contribution requirements

Qualifications:

- Pursuing an undergraduate degree in actuarial science, mathematics, statistics, or other mathematics-related degrees
- Interest in learning practical applications of actuarial science
- Strong analytical skills and math aptitude
- Ability to work effectively in a team-based environment
- Attention to detail and commitment to task
- Strong GPA
- Strong computer skills
- Ability to pass exams
- Good decision-making and problem-solving skills
