

STA442/1008 2012

Quiz 2

Circle the following numbers on your printout, and write the question number beside each one.

1. How many cars in the sample were Japanese?
(13)
2. What is the standard deviation of length? (55.05)

Turn in your log file and list file. If they are not stapled together, make sure your name and student number are written on both printouts.
